
Active Admin - Uni-Sale

Michael A Stokes, Michael Stokes

20th March 2015

1 Introduction

Implementing `activeadmin` within the website for administrative privileges such as manipulation of users, items etc.

1.1 Installation

1. `gem activeadmin`
2. `rails generate active_admin:install`
3. `rake db:migrate`
4. `rails server`

1.2 Model Configurations `activeadmin`

1. `rails generate active_admin:resource Item`
2. `rails generate active_admin:resource User`
3. `rails generate active_admin:assets`
